Interstate Pollution Control- Rockford, Illinois
Superfund/Technical Reports

Dear Mr. Hooker:

The Illinois EPA has reviewed the Remedial Action Completion Report submitted for the Interstate Pollution Control (IPC) Superfund Site on November 27, 2006 in accordance with paragraph 48 of the Consent Decree. The information included in this report is approved. However, there are still activities to be completed. The two offsite wells have to be installed, and the documentation of the well installation submitted to the Illinois EPA for review and approval. Also, financial assurance and institutional controls have to be completed for this site per the consent decree. In accordance with paragraph 48 of the Consent Decree, a schedule for completing these activities is to be submitted to the Illinois EPA for approval by January 12, 2007.

Please advise if there are any questions.

Sincerely,

Doyle W. Wilson
